Steve:

The progress report looks great. For the next progress report, I would like to get an updated schedule from you guys which shows the anticipated activities and the completion dates associated with those activities. I am primarily interested in the removal response activities but if necessary, you can combine with the Remedial activities that you are doing with Rafael.

Thanks

Progress Report

I did the monthly progress report for the Falcon Refinery last Friday and then forgot to send it out. Please send back any comments. As stated in the report the Texas Molecular facility is re-opening this week.
